Art Unit: 1796

1. The amendment of October 2, 2008 has been entered. In view of the necessity of applying newly discovered prior art, prosecution has been reopened and the finality of the Office action of June 6, 2008 has been withdrawn. The delay in citing the newly discovered prior art is regretted.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 44-49 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 325941.

The reference discloses polyisocyanates and their reaction with polyester/polyacrylate polyols to yield polyurethanes, wherein the polyisocyanates have contents of uretidinedione groups and biuret groups that are considered to meet applicants' claims. See entire document, especially abstract and examples.
